CURRICULUM VITAE

CAREER OBJECTIVE

To seek a full time job to work hard with full dedication and commitment in a highly challenging and competitive environment for the enhancement of my creative abilities as well as to achieve organizational goals.

PROFESSIONAL EXPERIENCE

Last Role

Company : UNICOM ERP
Designation : Software Developer
Experience : Nov 2013 to Till Date

Company Profile

It's a startup company. It provides cloud based customizable ERP solutions. Enterprise resource planning (ERP) is a Business Management Software. ERP systems track business resources—cash, raw materials, production capacity etc—and the status of business commitments: orders, purchase orders, payroll, etc.

Job Profile

- Create sessions with different functionalities into the ERP product which includes UI building, SQL querying etc. with **ASP.NET (VB.NET)**.
- Developed functionalities by writing class, functions and stored procedures and designing web forms required by client.
- Designed and developed high performance, user friendly web applications utilizing .NET technologies such as **C#, ASP.NET, SQL Server, LINQ**. As well as other web technologies such as **HTML, JavaScript (AJAX & jQuery), CSS, Ajax, json**.
- Sending emails from application.
- Creating reports in **RDLC**.
- Maintaining and adding features as required by the clients.

An outside project from job done for office

- Created an **Automated coding system (PAC)** to generate the code for an entire master session including SQL Queries **without writing a single line of code**.
- Templates for transactions page can also be generated.
- It can also **generate simple RDLC Reports, Database Functions etc**.
- **All codes can be generated by simply filling a form**.
- It's officially authorized and implemented in our office, which creates bug free pages in a few minutes.
